PROFESSIONAL SUMMARY

Aspiring Software Engineer with a background in Electronics and Communication Engineering. Experienced in developing React.js frontend applications and collaborating in Agile teams using Git, Pull Requests, and Taiga. Actively practicing Data Structures and Algorithms and building full-stack projects to develop efficient and scalable software solutions.

EDUCATION

AISSE- Class 10 | 2019-2020 | Satish Chandra Memorial School | 91.4%

AISSCE- Class 12 | 2020-2022 | Satish Chandra Memorial School | 70.8%

B.Tech in Electronics and Communication Engineering | JISCE | Kalyani | 2023-2027 | 8.015 cgpa

PROJECTS

1. Trade Assist App – Full Stack Web Application (Ongoing)

Tech Stack: React.js, Node.js, Express.js, JavaScript, REST APIs, Git, GitHub, Taiga

- Collaborating in the development of a full-stack web application to help agents manage customer records, customer issues, purchase history, case details, fund details, and account transfer requests.
- Developing responsive frontend components using React.js, including Search Page, Search Bar, and New Customer modules.
- Implementing conditional rendering based on backend API responses and preparing the frontend for REST API integration.
- Working with a Node.js and Express.js backend to integrate frontend components with RESTful APIs.
- Collaborating in an Agile development environment using Taiga for sprint planning and story tracking, along with Git feature branching, Pull Requests, code reviews, and merge conflict resolution.

2. Smart Jacket for Coal Mine Worker's Safety

- Designed and developed a safety monitoring jacket integrating MQ-2, MQ-7 gas sensors, flame sensor, and DHT11 sensor.
 - Used Arduino Uno microcontroller to continuously monitor hazardous gases, temperature, and fire risks.
 - Focused on real-time environmental monitoring to enhance worker safety in underground coal mines.
 - Patent application officially published on 05/12/2025.
-

ACHIEVEMENTS

- NPTEL Certification in Programming in Java (IIT Kharagpur) – 96% Score
 - Published Patent: Smart Jacket for Coal Mine Worker's Safety (Application Published: 05/12/2025).
 - Research Paper Published on Smart Jacket for Coal Mine Worker's Safety
-

SKILLS

- Programming Languages: C, Java, Python
- Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs
- Database: PostgreSQL
- Core Concepts: Data Structures & Algorithms, OOP, DBMS
- Tools & Platforms: Git, GitHub, VS Code, Taiga, Arduino IDE
- Development Practices: Agile, Git Feature Branching, Pull Requests, Code Reviews, Merge Conflict Resolution

HOBBY

- Reading self-development books (e.g., Atomic Habits, How to Win Friends and Influence People)
- Watching anime series and sci-fi movies
- Playing video games on PC.
